

HD Construction Equipment Hyundai Europe NV – Accountant (GL)

To strengthen our Finance team, we are looking for a hands-on and motivated **Accountant** who is eager to contribute to both day-to-day accounting operations and the further development of our financial processes. In the initial phase, you will provide additional support during the rollout of our SAP S/4HANA environment. Afterwards, you will take up a broader role within the general accounting team, supporting monthly and annual closings, reporting, tax compliance, audits and process improvements.

What can you expect from this job?

Initial phase

- You will provide additional support to the Finance team during the rollout of the SAP S/4HANA environment.
- You will support the general accounting and accounts payable teams with various operational tasks.
- You will help ensure continuity, accuracy and efficiency during this important transition period.

After the implementation phase

- Together with two colleagues, the Accounting Manager and the Controller, you will be responsible for the general accounting activities.
- You will contribute to the monthly and annual closing process for the legal entity and its foreign branches.
- You will assist in the preparation of monthly financial reporting.
- You will support the preparation of tax obligations, including VAT returns, corporate income tax and other statutory reporting requirements.
- You will help prepare internal and external audits by gathering documentation, supporting reconciliations and responding to audit requests.
- You will actively contribute to identifying and implementing process improvements within the accounting function.
- You will support the Controller in analysing inventory and related production costs.
- You will contribute to ad-hoc finance projects as required.

Are you the colleague we are looking for?

- You hold at least a bachelor's degree in Accountancy, Tax, or in another economics, finance or business-related field.
- You already have relevant professional experience within accounting or finance.
- You are interested in developing a strong understanding of ERP functionalities and complexities; knowledge of SAP is considered a strong asset.
- You are fluent in Dutch and English, both written and spoken.
- You have knowledge of Belgian GAAP; knowledge of IFRS is an additional advantage.

- You have an interest in internal control over financial reporting (ICFR), and experience with SOX is considered a plus.
- You are eager to learn and enjoy deepening your knowledge of accounting and tax-related topics.
- You have a hands-on mindset and a strong sense of responsibility.
- You are communicative, flexible, conscientious and accurate in your work.
